

LIFE HELD NO PLEASURE

An Old Citizen of Reno Blows Out His Brains

The community was startled yesterday morning by the news that Joseph Berry, one of the oldest and best known citizens of Reno, had committed suicide.

Mr. Berry resides on West Fifth street in a cabin all alone. He was a carpenter by trade, but recently he was forced by the infirmities of advancing age to quit work. He was not blessed in this world's goods, in fact there was less than a dollar in his cabin when he was found.

The deceased placed the muzzle of a revolver to his temple and blew out his brains. He leaves no relatives here and was alone in the west. He had relatives in the east.

The body was removed to Perkins & Oliver's mortuary parlors. An inquest will be held there this morning at 10 o'clock.

Will Represent Nevada

Prof. N. E. Wilson leaves this morning for Atlanta, Georgia, to attend the national convention of Agricultural Colleges and Experiment Stations. Prof. Wilson represents the University of Nevada and the Nevada Experiment Station. He will also attend the convention of the American Association of Agricultural Chemists, which is composed of the chemists of the National Experiment Stations. This convention meets at Washington, D. C.

The Independent says Judge Hawley and other speakers at a Republican rally were silent as the grave on the trust and silver issues.

John L. Wedekind Buys a Mine

Mr. and Mrs. J. L. Wedekind of this city left yesterday for Coleville, Mono county, where they will reside for the winter. Mr. Wedekind has purchased the Golden Gate mining property near Coleville and will spend the winter in developing it.

The Golden Gate was discovered several years ago, three miles southwest of Coleville, in the mountains dividing Mono from Alpine counties. It is one of the most heavily worked ledges in the west, lying between immense dikes of slate and porphyry. The ore is in a true quartz and there is almost positive assurance of permanency. A two-stamp mill is in operation on the property. The gold is free and is of remarkable fineness. Mr. Wedekind is to be congratulated on securing this promising property.

Mr. O'Sullivan Will Sing Here

Dennis O'Sullivan, the noted baritone, has just completed the most successful four weeks' run ever known at the Grand Opera House in San Francisco. He is on his way to London where he has numerous engagements during the coming season in concert work. He will give a ballad concert consisting of English, German, Scotch and Irish songs in Reno on the evening of October 13th.

Return of Dr. Stubbs

President Stubbs is expected back from Southern California Sunday. His health is almost completely restored. Sunday morning the entire University student body, headed by the cadet band, will be at the depot to welcome President Stubbs.

Fewer Prisoners

The conveying of sentenced prisoners to the State Penitentiary has reduced the number of inmates in the county jail to twenty-four, the smallest number for some time.

Guardian Appointed

The district court has removed from the custody of Mrs. Beaglehole an infant adopted by her. Mrs. Dr. Herzhiser was appointed legal guardian of the little child.

Slow Registration

There are less than 1300 names on the list of registered voters of Reno. Registration should be more active. The time is growing short.

Business Increasing

Plans are on foot to add another story to the Flanagan warehouse. This great structure has been found to be inadequate for the transaction of its constantly increasing business.

Received Congratulations

Henry Epstein came up from Sacramento yesterday. He was generally congratulated by his friends on his promotion by the Southern Pacific Company.

What the Trust Does

How the wire trust affects the people of Nevada is tersely told by W. H. Gilmor, one of Elko county's solid ranchers, who says the year before the trust was formed he sold his steers for \$35 a head, and it took two to pay for a ton of barbed wire. The year after the trust was formed he sold his steers for \$32.50 a head and it took four of them to pay for a ton of barbed wire. Mark Hanna once said a trust was a good thing for the people, but Mark would have considerable trouble in convincing Mr. Gilmor that the wire trust is a good thing for the Nevada rancher.—Independent.

Wheelmen Vote to Retain the Hall

A special meeting of the Reno Wheelmen's Club was held last evening to take action on a proposition made by Frank Kaufman to use the gymnasium for a vaudeville theatre. The proposition was voted against unanimously. The boys appeal to desire to retain the entire hall until their new club house is habitable. It is said that Mr. Kaufman and his partner secured from Mr. Byington a lease of the hall. The boys are now sub-letting from Frank Golden, who leased the entire building.

THE FIRST CONTEST

The Football Season Has Opened at the University

Today at 3 p. m. come and bring your friends. No admission will be charged. The game is free. The first team lines up against the second. Although the Varsity is heavier and stronger than the second, a lively contest can be expected, as the men on the second eleven are determined and gritty, not a few will hustle many of the men on the first, especially O'Hara who will hustle all the ends.

Hoffman who plays quarterback on the second today, has an even chance with Leadbetter, and Evans will hustle Graham at full back, so all in all the game will be hotly contested.

We ask you to come up and learn the game, as later in the season you may expect a lively entertainment in the football line.

Football, like anything else, if carried to a successful issue, must have support. We want the people of Reno to support us. What helps us helps the University and what helps the University helps the town and what helps the town helps us all. The schedule of games is as follows:

October 11—Berkeley Freshmen or Salt Lake
October 18—Reliance A. C., at Reno.
October 25—Berkeley at Berkeley.
November 1—Stanford at Stanford.
November 15 or 18—Alumni of last year. Olympics at Reno.

There is a possibility of a game with Oregon or Washington in Frisco, and if we are successful, a game with Wisconsin or Michigan on Christmas holidays.

Address Upon the Irrigation Question

"For the first time in the history of this country, thousands of our farmers from States like Iowa, Kansas, Missouri, Michigan, Wisconsin and Minnesota, are seeking homes in the Canadian Northwest, owing to the cheap lands offered in that country, and to the difficulty of securing such lands in the United States. A wise system of irrigation by the general government can be made not only self-sustaining, but a source of income. Lands, that without irrigation are given away or sold at a nominal price, can be sold as fast as they are furnished with water, at \$10 an acre or upwards, and the cost would be little, if anything, more than half that sum.

"I cannot urge too strongly on the part of every man who wishes his country well, and who desires that all shall be prosperous, in order that he himself may be prosperous with them, the importance and the growing necessity of taking care of our public domain in such a way as to preserve it for generations now unborn.

"I feel sure that no one here tonight ever expected to see the time when farmers and farmers' sons from the best States of the West would be forced to leave their country and their flag to seek homes in a foreign country.

"The United States has many social questions to settle in the near future, and nothing in this connection will take the place of its ability to provide good homes for those who desire to sit under their own vine and fig tree.

"Land with a population is a wilderness, and population without land is a mob."

A Special Train run for Stock Shippers

Division Agent Prentice has furnished The Journal with the following information that the State papers would do well to copy.

Per request of live stock shippers, it is decided that commencing Tuesday, September 30th, a Tri-Weekly service will be inaugurated for movement of live stock from Terrace, Utah, and all intermediate points in Nevada to Sacramento, Oakland and San Francisco.

Engine will start from Terrace, U., on Tuesdays, Thursdays and Saturdays, stopping at all sections where live stock is loaded and ready for shipment.

Therefore shippers should place their orders for cars one week ahead so as to allow time for placing cars at stations and loading same before this train reaches point of shipment in order that there may be the least detention, the effort being to furnish good and satisfactory service.

The plan is to experiment and much depends and rests with shippers as well as the transportation company in making a success of the undertaking.

All live stock for movement west-bound will be picked up, whether to be switched out at feeding grounds or brought through to California.

Miner Badly Injured

Dave Hunter, the well known miner, received injuries last night which may prove serious. He entered the tunnel at the Burning Moscow and in some manner fell twenty-eight feet to the bottom of a winze, striking on his head. He was missed by his wife and neighbors found him lying unconscious in the winze. He was taken to his home and Dr. Pickard summoned. Mr. Hunter was badly cut and bruised and there are symptoms of a fracture at the base of the skull. Dr. Pickard pronounced his injuries dangerous.—Enterprise.

A Reduction Asked

At the meeting of the County Commissioners as a Board of Equalization yesterday afternoon Attorney Frank Murphy of Carson asked that the tax rate on the V. & T. railroad be reduced from \$9300 to \$8000 per mile, the rate at which it was assessed in Ormsby and Washoe counties. J. M. Douglas asked for a reduction in personal taxes, claiming he was assessed too much.—Report.

Some Pointed Paragraphs

From the Commener.

The army and navy might settle it by engaging in a tea-drinking match for points.

"Texas Republicans divided" is a hard-line in a Republican campaign. Which one of them is out of a federal job?

The nomination of Senator Teller by the fusion forces of Colorado ought to seal the political fate of Mr. Walcott.

President Baer may awaken some morning to find that the people have secured a new administrator of their affairs.

One trouble with the self-elected "trustees of God" is that they spend so little of their time attending to the business.

If labor is able "to go on its own feet," as stated by an Iowa Republican organ, what is the matter with making capital walk?

President Roosevelt is in the south, visiting famous battlefields. On his return north he should stop at Hamilton and Homestead.

After having screwed up the price to the highest notch the beef trust professes to have some regard for Mr. Knox's injunction.

It seems that the navy destroyed the forts and the forts destroyed the navy just like the administration is regulating the trusts—theoretically.

"Labor is able to go on its own feet!" declares the Republican Sioux City Journal. Yes, and has to carry capital on its back—sometimes on its neck.

In order to make sure that his tour will be thoroughly non-partisan the Republican Committee of Western States have been given charge of affairs during the President's western tour.

The Republican papers which are cartooning and abusing Senator Teller will not be able to lessen the esteem in which he is held. The party organ that blows hot or cold according to the exigencies of the times cannot injure a man who has shown the character and conviction exhibited by Senator Teller.

JOHN H. DENNIS, Editor

AS A STRANGER WOULD VIEW IT

IF A STRANGER knowing nothing of American politics, State or National, and free from all partisan bias, were to arrive in Nevada he would at once learn that a political campaign is pending. Naturally he would desire to know something of the alignment of parties and the principles for which they stand. He would have no difficulty in ascertaining that the Democratic and Silver parties have been firmly wedded together for the purposes of the State campaign, and just as easy would it be for him to learn the principles which this Fusion party advocates. A glance at the clear and specific declarations contained in the Democratic and Silver party platforms, coupled with the most cursory reading of any one or two leading Fusion newspapers would give him a perfect understanding of the aims and purposes of that party.

When, however, our stranger turns to the opposition and endeavors to find out upon what basis it is appealing to Nevada's electorate, his work will not be so easy. The Republican platform will make it sufficiently plain that except upon the Silver question the Nevada wing of the party is endeavoring to keep in line with the National organization, regardless of what its principles or policy may be. But that platform fails utterly to give a single reason why any Nevada voter should cast his ballot for the Republican candidates, unless the circumstance that they call themselves "Republicans" is to be accepted as a reason.

When our inquiring stranger seeks additional light in the columns of the Republican press he simply finds himself more and more perplexed for a reason. One Republican opinion moulder asserts that the Wilson Tariff did not produce revenue enough. Our stranger, if at all familiar with National affairs, of course knows that aside from the fact that the claim is essentially untrue, the Wilson Law is quite as much past history as is the Walker Tariff of 1846.

Another Republican organ gravely announces that as the silver issue is dead, Nevadans should now throw themselves into the benevolent arms of those who killed it. As this claim is lacking in every element of good common sense it goes without saying that it makes no impression upon the visiting stranger.

Then all along the line of Republican journalism the newcomer will note a series of nasty slurs at Representative Newlands.

"Newlands is rich." Newlands expects to be elevated by the corrupt use of money. "Newlands has no brains—his wealth is his only recommendation, he is inferior to Judge Hawley both in intellect and character." "Newlands is not a bona fide resident, he has no standing in Congress; he has done nothing for Nevada, and his only work in connection with the Irrigation Law was to make it worthless by his stupid blundering." Such our stranger friend would learn is the Republican line of "argument" against Francis G. Newlands. It need scarcely be remarked that it is a line of mudslinging not calculated to carry much weight with anybody who believes in decency in political debate.

But assuming that, our suppositious stranger knows a little something about public affairs, he instantly perceives that nearly all of this tirade against Newlands is without a shadow of foundation. He must know that if Newlands is moderately rich he is also a man of brains, and of splendid standing in the House of Representatives. He must know that Newlands was a strong factor in the enactment of the Irrigation Law, and that everywhere outside of Nevada Republican circles that law is regarded as one of great value for this whole Western country. He must know that upon nearly all questions of moment that have come before Congress during recent years, including among these questions the financial issue, the trusts, the tariff, reciprocity with Cuba and the annexation of Hawaii, Mr. Newlands has been a recognized force in Congress, which disposes of the claim that his intellectuality is of a commonplace order.

As for Mr. Newlands' wealth, the stranger would be very likely to remember that if the millionaires were dropped out of the United States Senate along with those Senators who were elected by millionaire and corporation influence, the Republicans majority in that body would disappear in the twinkling of an eye. Knowing that everything else charged against Newlands is false the logical conclusion is that the charge of improperly using money is equally false and our stranger would be quite certain to form the opinion that on this score the Republican conscience is only disturbed

because Newlands, with whatever wealth he may possess is on the other side of the political fence.

Beyond this, the inquiring stranger will observe some very general talk about "Republican prosperity," but he will search in vain for specifications of the features of Republican policy which have produced the prosperity. With the most ordinary intelligence he will easily be able to find the causes entirely apart from anything the Republican party has done. Hence will come the final judgment that in Nevada, at least, the party is absolutely without argument and consequently without merit.

For the benefit of the supposed stranger and all others similarly situated as well as for the advantage of Nevada Republicans themselves, The Journal begs to suggest once more that if they have any argument it is about time for them to begin to use it. If the Fusion party has all the money (as is claimed) a goodly share of the brains (as is quite apparent) and all of the argument our Republican friends might as well begin to "hunt their holes."

WHEN labor unions acting strictly within their legal rights, become indirectly the cause of inconvenience to the community, trust-owned newspapers shriek in vicious frenzy for interference by courts or the legislature; but when trusts by their extortions become the cause of like inconvenience, the newspapers say: Too bad but the law gives no redress.

IN 1893 there was moved by each railroad employee 107,129 ton miles of traffic. In 1900 the service required of each railroad employee was 139,000 ton miles. That means in effect an increase of service of over 30 per cent or a decrease in wages if the men were paid by the ton, of about the same per cent. This is how the laboring man has fared during the extremely prosperous times which we have been having during the past ten years.

WAS GUILTY AS CHARGED

A Boy Formerly of Reno Committed Forgery at Golconda

Word was received in this city yesterday that Eugene (Chippy) Stanton had been found guilty of forgery before a jury in Winnemucca. The case had been pending some time, says the Appeal.

The case marks his second offense of the same nature, he having served a term in the Sacramento, California, jail for forgery. Scarcely had the doors of that institution closed behind him when he fled to this State and committed a like offense, that of forging a man's signature to a check, which he cashed in Golconda. He was apprehended and next Monday, when he appears for his sentence, he will be sent to the State prison at Carson, his former home.

This case marks the downfall of a young man for whom success was predicted by many friends. After leaving the Orphans' Home in this city, where he was raised, he went to the State University, and under adverse circumstances worked his way through. He was intelligent and ambitious and made many friends among the students. At that time no one questioned his honesty. It was while at the University that he received the non de plume of "Chippy." Later he took to drink and to bad boose can be attributed his downfall.

NEW CHOP HOUSE.

The former proprietor of the Reno Chop House has opened a restaurant in the basement of the Pyramid house. All his former guests are invited to continue their patronage. S4m

After Purer Water

The Nevada Power, Water and Light Company has a large corps of men at work near the old electric light works engaged in boring for water. An effort will be made to find a sufficient flow of pure water to supply all the needs of the city, which is now using about 6,000,000 gallons daily. Several wells twelve inches in diameter will be sunk.

MERCHANTS' LUNCH.

The Owl Cafe will serve a merchants' lunch every day from 11:30 to 3 o'clock for 25 cents. The lunch will be delicate and tempting. French dinner will be served every Sunday, including Charet wine. Remember the Owl's Virginia street, Cafe. 19tfm

NO SUBSTITUTE OFFERED.

Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy when the best remedy for diarrhea is asked for, and do so because they know it is the one remedy that can always be depended upon, even in the most severe and dangerous cases. It is for sale by S. J. Hodgkinson.

SAVES A WOMAN'S LIFE.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for consumption and was completely cured." Sufferers from coughs, colds, throat and lung trouble need this grand remedy. For it never disappoints. Cure is guaranteed by S. J. Hodgkinson. Price 50c and \$1.00. Trial bottles free.

Independent Man on Independent Ticket

George E. Holesworth announces himself as an independent candidate for the office of long term commissioner of Washoe county.

Mr. Holesworth needs no introduction to the voters of Washoe county. He has resided here for many years and is a contractor by profession. Many of the finest buildings in this city were erected by him.

He has always proven himself a patriotic and loyal citizen of the town and county and is splendidly qualified for the duties of the office which he seeks.

A Sure Winner Is Peter Burke

When you glance down your ballot November 4th don't fail to put a cross after the name of Peter Burke, regular Democratic-Silver Party nominee for the Assembly from Washoe county.

Mr. Burke is a well known contractor and builder of this city. He is an unwavering Democrat and has devoted considerable study to the question of political economy and is in every way qualified to serve the people of this county in a creditable manner. Vote for Peter Burke and you will vote for a winner.

The "full coal bin" is not, you will observe, a Republican campaign slogan.

THE PROPER TREATMENT FOR A SPRAINED ANKLE.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by S. J. Hodgkinson.

SPECIAL NOTICE.

Owing to the delay in the opening of "The John Brenner Furniture and Carpet House," our resident manager, J. C. Leopold, will be pleased to call upon and consult with any parties interested in the purchase of any goods in our line.

We have in Reno a complete sample line of carpets, matting, linoleums and shade cloths, which he will be pleased to call and submit for inspection.

A Modern Mansion on Ralston Heights

F. O. Morton, superintendent of the Pyramid Lake Mining and Milling Co., is building a handsome residence on Ralston Heights in St. George's Addition.

The cottage, which is a gambrel roofed Colonial, is distinctly original and modern and will prove an ornament to our city.

Its chief exterior features is a half octagon south porch 13 1-2 by 20 feet, and stoned up 5 feet with a rare and beautiful pinkish granite.

The unique design is entirely the work of Mr. Morton and his artist wife.

Expert Photography

W. E. Cann has gone to Candelaria to make some photographs of the interior of a mine for use in some litigation that has begun over a property there. Mr. Cann has ceased to do portrait work and is the recognized superior of all other photographers in the State in underground flashlight work. The recent writeup of the Wedekind mine was illustrated by pictures taken by Mr. Cann.

Still Another Strike Made at Tonopah

An unconfirmed report is current that a strike of some importance has been made in the North Star tunnel company's property at Tonopah. Indications are said to be very favorable.—Carson News.

The rumor reached Reno early yesterday morning that there was something doing in the Tunnel Company's property. Mr. Sinclair was summoned by telegraph from San Francisco by Frank Golden, another large holder of stock in this property. It is the general belief that another big strike has been made in this world famous camp.

A pair of properly fitted eyeglasses will give you a world of comfort that you will scarcely realize with defective vision. Call at Golden's jewelry store, only graduate opticians employed.

TELEGRAPHIC NEWS BREVITIES

The condition of President Roosevelt's injured limb is considered satisfactory by his physicians.

William J. Bryan made his first speech in the Kansas campaign yesterday, addressing a big crowd at Convention hall. He talked at length on the taxation issue.

The worst wreck in the history of the Bessemer road was occasioned by the head-on collision between two freight trains at a point two miles east of Mercer, in which four were killed and three injured.

Brigadier-General Funston, in his annual report of the Department of the Colorado, declares that the recent anti-canteen legislation of Congress has lowered the discipline of the army, ruining scores of good soldiers and enriched saloon keepers, gamblers and dissolute women.

Details of the Troy Laundry Transfer

The Troy Laundry Company has reorganized. S. M. Sample was chosen secretary. The directors are Senator Flanigan, Jay Clemons and Herbert Fleishacker.

The one-sixth interest held by S. M. Thrift was purchased by Mr. Sample and the one-sixth owned by Mr. Roscoe was bought by Messrs. Flanigan and Fleishacker.

A capable manager will be put in charge of the laundry and it will be conducted on a strictly business basis. It is one of the most complete and modern establishments of its kind in the west.

AETNA MINERAL WATER

(Bottled at Aetna Springs, Napa Co. Cal.)

There are so many kinds of mineral waters on the market, and all claiming to possess healthful properties, that it is difficult for a person to make a choice.

When we consider, however, that AETNA has stood in the front rank for years, has been a favorite in households as well as public resorts, and has been recommended by eminent physicians, who use it themselves and prescribe it for patients, there should be no question in the matter of selection.
